

MUSE

• DECO BEND-SHAPE

Bended steel tube 10mm diameter, polyester powder painted on cataphoresis layer, available in two sizes (L500mm, L800mm). Installation through aluminium black base or plastic fiberglass reinforced spike, operating at 24V. The lighting sources operate through a spring connector in male/female version present on the accessories, fixed by nuts, and protect with rubber washer to ensure watertightness and allowing the complete rotation of 360°.
