

Rider Nude  
Product Specification Sheet

oft

## Rider Nude Product Specification Sheet

The Rider Range is a cohesive suite of lighting defined by simplistic elegance. A glass dome is the characteristic feature of the Rider, repeated in Single, Double, Triple and Quad variants to form this iterative collection. The dome offers a visual sense of wholeness, a rounded softness delicate to the eye. These surface-mounted wall or ceiling lights are suited to multiple locations inside or out of any residential or commercial premises.

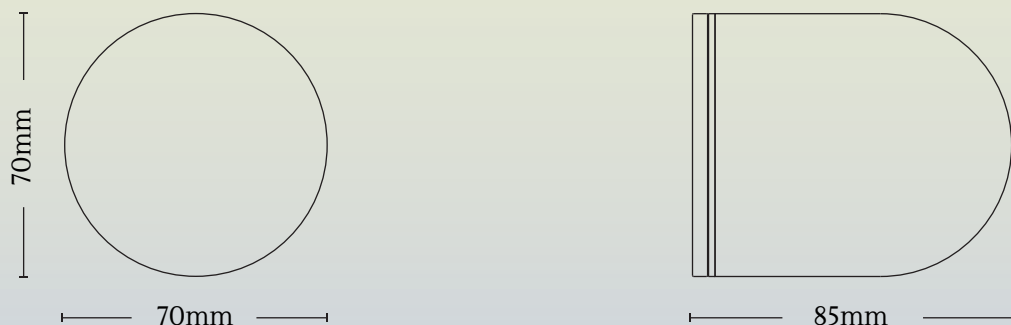

### Details
