

This piece is handmade with love. Intrinsicly there will be slight variations in size and shape. Small bubbles may be present in the glass.

The colouring effect of the Colourscape wall sconces can be quite variable due to the nature of our process when applying the colour to the glass. This makes them beautiful, unique little artworks.

Inspired by the ever changing Australian skies, the Colourscape Wall Sconce blends colour together in a painterly fashion, allowing the glass to ebb and flow harmoniously.

Each piece is it's own work of art. No two are ever identical, just like the clouds we watch shift above us.

A warm, soft glow is emitted. A beautiful addition to any space.

PRODUCT DETAILS

Dimensions (cm)	As below
Application	Indoor
Material	Blown Glass
Finish	refer to website photos
Lamp	3W G9 OR LED BOARD
IP-Rating	IP20
Backing plate finishes:	Black, White or Brass

SIZE:

MINI:
Glass Dimensions - 120mm Diametre
x 75mm Depth.
Fixture Plate Dimensions:
140mm Diametre x 25mm Depth

MEDIUM:
Glass Dimensions - 160mm Diametre
x 80mm Depth.
Fixture Plate Dimensions:
140mm Diametre x 25mm Depth

LARGE:
Glass Dimensions - 180mm Diametre
x 100mm Depth.
Fixture Plate Dimensions
Large - 200mm Diametre x 25mm
Depth
